

ZAWIADOMIENIE O ODRZUCENIU OFERTY

Zapytanie ofertowe pn.:

„Dostawa zestawu do wideokonferencji na potrzeby Starostwa Powiatowego w Turku”

Powiat Turecki reprezentowany przez Zarząd Powiatu Tureckiego (Zamawiający) informuje, że na podstawie punktu 3 podpunkt 7 ogłoszenia o zapytaniu ofertowym pn. „Dostawa zestawu do wideokonferencji na potrzeby Starostwa Powiatowego w Turku” **odrzuca ofertę nr 3** złożoną przez Garets Sp. z o.o., ul. Jordanowska 2a, 04-204 Warszawa.

Uzasadnienie:

Na podstawie złożonej oferty przez Wykonawcę Garets Sp. z o.o., ul. Jordanowska 2a, 04-204 Warszawa, zestaw głośnomówiący SP10 producenta Sennheiser nie spełnia wymogów określonych w szczegółowym opisie przedmiotu zamówienia:

1) w SOPZ jest:

„Zestaw powinien umożliwić uczestniczenie w wideokonferencji co najmniej 12 osobom, ...”.

Z informacji zawartych na stronie <https://www.bechtle.com/pt-en/shop/sennheiser-sp-10-speakerphone--886513--p> wynika, że urządzenie jest przeznaczone do wideokonferencji dla max 4 osób. Z informacji zawartych na stronie <https://www.provu.co.uk/pdf/sennheiser/speakerphone.pdf> wynika, iż urządzenie jest zaprojektowane z myślą o maksymalnie 4 uczestnikach;

2) w SOPZ jest:

„zasięg mikrofonu: w promieniu co najmniej 3 m”

Z informacji zawartych na stronie <https://www.bechtle.com/pt-en/shop/sennheiser-sp-10-speakerphone--886513--p> wynika, że zasięg mikrofonu oferowanego urządzenia to 1,25 m;

3) w SOPZ jest:

„maksymalna moc wyjściowa: co najmniej 90 dB SPL”

Brak informacji dotyczących powyższego parametru.

W związku z powyższym oferta nie spełnia wymogów szczegółowego opisu przedmiotu zamówienia i podlega odrzuceniu.

 **SENNHEISER**
The Pursuit of Perfect Sound

Clear communication drives business results

More meetings

Today's business is increasingly global with widely spread workgroups – we invest more and more time in conferences and online meetings. Time is too valuable to waste on unproductive communication or underperforming technology.

New working styles

With the increasing popularity of online meetings, huddling has become a real UC phenomenon: meetings are set up spontaneously, and not necessarily in a dedicated conference room. This kind of ad hoc conferencing requires flexibility and mobility – and solutions that work always and anywhere.

Clear communication is the key

From dedicated conference room to agile huddling solution, clear sound in every corner of the room is a fundamental factor for successful communication. Because, if audio quality is not clear, outcomes are not clear.

Truly Unified Communications

UC bears strategic importance for any business: The ability to quickly connect to devices and deliver your message with impact requires open standards and maximum connectivity.

What do managers expect from audio conferencing solutions?

USABILITY

96%

think starting a meeting should be very intuitive

AUDIO QUALITY

99%

expect the audio quality to be as good as in-person meetings

CONNECTIVITY

93%

would like to add additional participants or devices to a meeting

FLEXIBILITY

81%

think the solutions should be portable, so they can be used independent of location

* MEETING Managers' Needs by Millward Brown in Cooperation with Sennheiser: 155 personal, 10-15-minute telephone interviews and 16 in-depth psychological 30-minute interviews among top-level managers in Germany, the UK, the USA and Singapore. Conducted from October 2015 to February 2016. INSIGHTS2020:

RELIABILITY

98%

expect the systems to work without any technical issues

Conference Calls with Style and Reach

The Sennheiser Series of compact, portable speakerphones is designed to provide scalable conferencing solutions for business professionals. Flexible enough to handle a single mobile phone to a packed conference room, these speakerphones are literally plug in and talk. The series' streamlined styling, superb finish and lightweight design signal high-end quality on the desk or in the conference room.

Perfect sound

The Sennheiser Speakerphone Series ensures an outstanding communication experience. Both callers and listeners experience a more natural interaction, making conference

calls less stressful and more productive. For relaxing between calls, you can also use the speakerphone for listening to music with Sennheiser's renowned sound quality.

Scalable and flexible

The Sennheiser Speakerphone Series makes conferencing simple. With a single unit, you can put an end to searching for an available conference room and set up an impromptu conference with your customer. For larger conferences of up to 12 participants, the dual speakerphone solution brings high quality conferencing sound within reach of all participants.

SP 10 & SP 20 Speakerphone It's a conference call in a briefcase

When you're on the move, the Sennheiser SP 10 and SP 20 lightweight, compact speakerphones let you set up personal calls or small group conferences wherever you are - any room becomes your office; just plug in and talk.

SP 220 Dual Speakerphone Extend your conference reach

When you are in a hurry, it just has to work. Whether you use only one of the units for personal calls or two together for a full conference, the SP 220 dual speakerphone solution is the easiest and most flexible solution on the market. Just plug, play and communicate with exceptional sound.

Tools that get you talking

Communication in a business context can be as diverse as an impromptu online meeting in the huddle room or a well planned conference with a large screen. Whatever your situation, the wide range of Sennheiser speakerphones, featuring state-of-the-art technology, will get you swiftly connected and encourage better, more natural interaction in any conference situation.

The flexibility of our series units means that they can be used anywhere, hassle-free and easily. Because our products are 100% focused on seamless integration and ease of operation.

Plug and Play

A standard USB cable connects to your PC, while powering or charging your device.

Security cable lock

Safely attach one or both of your speakerphones to the desk or to tables in meeting rooms, to reduce the risk of theft. There are three attachment options: double-sided adhesive; screwed to desk or a Kensington cable lock (not included). The Security cable lock is available as an accessory.

Ease of use

Easy cable management with built-in cable system.

SP 10 & SP 20 Speakerphone

Conferencing across devices

Merge softphone/PC and mobile calls into one conference.*

Intuitive user interface

Clear microphone mute button, call and volume control.

Exceptional sound

Replace PC and mobile phone speakers and microphones with Sennheiser sound quality and enjoy music wherever you are with a dedicated sound-enhancement profile for music and video.

Outstanding communication

Sennheiser Voice Clarity and echo cancelling give a natural speech and listening experience.

Talk time for a full workday

Get up to 20 hours per charge with easy charging in just 2 1/2 hours via USB cable.*
Voice prompts for low battery warning.

Learn more at: www.sennheiser.com/speakerphone

* Applies only to SP 20/20 ML

SP 220 Dual Speakerphone

Intuitive user interface

Clear microphone mute button, call and volume control.

SP Link Adapter

Connect dual speakerphones via 3.5mm jack plugs.*

Outstanding communication

Sennheiser Voice Clarity and echo cancelling give a natural speech and listening experience.

Talk time for a full workday

Get up to 20 hours per charge with easy charging in just 2 1/2 hours via USB cable.*
Voice prompts for low battery warning.

Flexible and scalable

Connect a speakerphone to your phone, or cover a midsize conference room – with just one solution.

Exceptional sound

Experience the clarity of Sennheiser HD sound quality and enjoy stereo music when using both units.

Better quality conferencing for everyone

Place a speakerphone within reach of every participant and get a superior quality audio experience for up to 12 participants. Dual talk function and close proximity microphones let you converse naturally without raising your voice.

Learn more at: www.sennheiser.com/speakerphone

* When connecting to a mobile phone or merging a call between PC and mobile phone, only one of the SP 220 speakerphones is in use.

Sennheiser Speakerphone Series

Depending on which communication device you use most, you can choose between the flexible SP 20 for connecting directly to your PC, mobile phone or tablet or the SP 10 if you use your PC. Quickly set up flexible, high quality conferencing facilities anywhere from small huddle rooms to larger meeting rooms with a SP 220 dual speakerphone solution certified and optimized for your communication platform.

Experience Sennheiser

Perfection is always relative: Users have different expectations from their headsets depending on their needs. For professional users, that need is to communicate as effectively as possible. With Sennheiser's range of headsets and speakerphones, the combination of exceptional HD sound, quality design and build – and a focus on real life usability - give the best performance possible in busy offices, contact centers and Unified Communications environments.

Please visit us at: www.sennheiser.com/cco

Sennheiser is one of the world's leading manufacturers of headphones, microphones, wireless transmission systems and high-quality headsets for both business and entertainment. Drawing on the electro acoustics expertise of Sennheiser and the leading hearing healthcare specialist, William Demant, Sennheiser Communications' wireless and wired headsets and speakerphones for contact centers, offices and Unified Communications professionals are the result of Sennheiser's and William Demant's joint leadership in sound quality, design, wearing comfort and hearing protection.
